February 6, 2017

To whom it may concern,

Please accept this letter of endorsement for the City of Williamstown to seek grant funding under the 2017 KY OHS grant program. A successful application will allow them to install a Multi-Cast solution for our repeater site located within Crittenden, KY.

This site has continually given our county issues while trying to communicate with our responders on the North end of the county within the Crittenden coverage area. These issues transpired after we up-graded our communications to a digital platform and include dropped transmissions, variable volumes, static and the complete drop of communication calls at times. RCS Communications has completed a propagation study and determined this project to be our best means of addressing the problems at an affordable cost.

This project will address the above noted shortfalls and allow concise and clear communications which our responders deal with daily. These interruptions cause extreme issues both communication wise and to the safety of our responders. This grant application addresses the issues and will allow us to deal with the Southern end of the county during another phase of the grant process.

It is our hope your favorable consideration of this project will allow the installation and improvements we desperately need to protect our citizens and responders. If you should have any questions or concerns, please do not hesitate to contact me.

Respectfully,

James Wells, Mayor
City of Dry Ridge

James Wells, Mayor
jim.wells@cdrky.org

Amy Kenner,
City Clerk/ Treasurer
