Moved to new frequency!

Project Plan:

To get all siren decoders upgraded to newer more reliable technology with keeping there existing siren and starters, which is more cost effective than replacing the whole siren.

25th

Replace the decoders at the following siren sites

- Old Crittenden @ Post office ✓
- Sherman Mt. Zion Road @ the bridge ✗
- Dry Ridge siren @ the city building (New siren old decoder) -
- Corinth @ the fire house (back plane on decoder cracked)
- Jonesville @ fire house (They have no tornado warning function at all)
- Heekin @ the school (project that is being worked on at this time) - NOT UP

NEW SIRENS

- Park
- Traction Supply
- Dry Ridge
- HEekin

Project Cost:

6 decoders @ \$1398.00 per decoder from Sentry Sirens
 Sentry Sirens Inc.
 2812 N. 9th St.
 P.O. Box 386
 Canon City, CO 81212

Project Total \$8388.00

TORNADO SIRENS

Project Time Line:

From date of order there is a 2 to 4 week delivery of equipment
 Upon receiving equipment a 2-week install of decoders at all sites except Heekin Rd. and that will be done at time of setting up the complete siren at this location.

1 - Park - works

2 in Williamson - work
