Re; Ridgeview Circle Roadway Improvements

Dear Mr. Mayor

We complied in full with the bid packet and proposal for this project. At the Public Opening we were read as the low bidder. We find later that it was awarded to the highest bidder, a local contractor.

Why did you even bid the job? Why didn't you just call the man up and tell him to come do the job. You put out a bid package that included an Engineers report, specifications, bid sheet and legal notices in the paper with a specific bid date and time. We met those conditions

You subverted the whole process by not following your own technical procedures. Was this the best way to spend Public Funds? It is not a big project , but we consider it a matter of Principle and Fair Play. We should have been awarded the project per the terms of your bid process.

Sincerely.

A handwritten signature in black ink that reads 'Tim Mulroy'. The signature is written in a cursive style with a long, sweeping tail on the 'y'.
